

BAJA FERRIES, USA

Interior Architecture & Design, Part-time

We recently kickstarted an exciting project in Europe - a new boutique, luxury cruise ship built and designed by Baja Ferries.

Who we are looking for: Current students/postgraduates.

Baja Ferries USA is currently offering two part-time internships. The right qualified candidates will be offered a paid internship, starting immediately and last for up to 3-6 months. Based upon performance, opportunities for a full-time position with our team are possible. Compensation starting at \$15.00/h.

Job Description:

Assist/Leads and coordinates interior design work for new cruise ship project while independently plans, manages and oversees projects. The candidates thrives in an innovative, forward thinking, proactive and collaborating environment that brings all disciplines together and creates favorable results. Commitment to learning and growth of oneself and others. Must be motivated, highly organized, detailed-oriented with ability to work under pressure and meet fast deadlines.

Required Skills:

AutoCAD, SketchUp, Photoshop, Autodesk 3ds Max, proficient in all MS office applications and relevant program for 3D rendering and elevations.

Learning outcomes:

- Space planning
- Marine Interior Design
- Material Sourcing
- IMO Regulations

We would prefer candidates who are fluent in Spanish + English and some familiarity/background with Mexican culture would be a huge plus. We have a smaller, collaborative and friendly work-environment located in Coconut Grove, FL.

If YOU are the perfect match for this internship OR know someone who would be a great candidate – please apply and send the CV & portfolio straight to me, Nina Andersson.
